Catfishing guides near me

First, I'm a fisherman and Captain Joe put us in the fish immediately. Second, I'm a husband, and Captain Joe kept my wife excited and engaged the whole trip. She was so excited and happy to roll the fish. I can't put a price on that experience. Whether you're a family man a beginner or a serious fisherman Captain Joe can set the stage for an amazing show on the water. - Joe Belcher, lifelong client. Hey Joe, thanks again for last night, we had an absolute blast! You have exceeded our expectations in every way! His attention to detail and patience with less experienced anglers was amazing. We would have been happy with our catch after the first hour, but pulling 20+lb Flathead all night long was really magical! Tight Lines, Lindsey, Audrey and Paul I've been on many guided fishing trips. Joe was by far the best! It does everything in your power to put you in fish as long as you get on the boat until you get out. I learned more on an eight-hour trip with Joe than I did in years of fishing. He says everything he's doing and why. He really has a passion for flat heads and it shows in the fish he puts on his boat! If you're looking for the best of the river, Joe is definitely your man! Counting the days until my next trip. Thanks for the amazing evening! I can't wait to get back in the water with you and get the new state record!!
